

Stone finish

## Product Information:

Utilising 30 years of Cyrus technology, the Lyric is a preamp, power amp, FM and DAB tuner, CD player, DAC and network streamer all in a beautiful single box. Available in two stunning finishes, Stealth and Stone, Lyric will complement any living space.

Inside this uniquely styled glass and aluminium full width chassis, lies all of the award winning engineering and musical passion at our disposal. With many subtle “hidden until needed” design features, and a ground breaking power amplification section developed especially for this range, Lyric combines style and elegance with a huge feature list. And because it’s made by Cyrus, class leading musical performance is guaranteed.

## Product Features & Benefits Overview:

### Advanced Audio Streaming Engine

Lyric can stream music wirelessly around your home from any computer or hard drive on your network. Browse and play your entire music collection using our Cadence app on your phone or tablet from the comfort of your seat.

### Award Winning CD Technology

Our proprietary CD ‘engine’ draws more data from a disc than any other CD reading platform in the world, enabling you to hear your CDs like never before, with detail and resolution which will give you goosebumps.

### High Power Amplifier

Cyrus’s expert amplification technology provides 150 watts per channel. All that power enables Lyric to present your music with a huge dynamic range, giving 3D detail and bags of energy.

### Made for iPod, iPhone & iPad

Connect and play from any Apple device. Lyric will play those digital files through its own DAC, giving you super quality sound, all whilst charging your device. Enjoy the music on your phone or iPad like never before.

### BLUETOOTH® Enabled (APTX)

Play music from any Bluetooth enabled device. Quickly connect your friends and families phones to sample their new music. Using the latest technology Lyric gives you the best audio quality possible over Bluetooth.

### Advanced Upsampling DAC

Our advanced 32 bit DAC (digital to analogue converter) ensures digital sources are decoded in super high resolution. You’ll fall in love with your music collection all over again.

### Speaker Impedance Adjustment

Lyric’s intelligent automated output adjustment system (SID) means you’ll always hear the best of your music, whatever speakers you have.

### Internet Radio

Browse and listen to over 100,000 global stations through TuneIn radio. Discover stations, music and podcasts from around the world. You’ll never run out of new things to listen to.

### PC friendly

Connect your laptop via USB and Lyric will automatically take the sound output from your laptop and, using its advanced engineering, turn it into something incredible.

Stealth finish

## Introduction to Cyrus

Cyrus is a British, specialist audio company, manufacturing precision hi-fi equipment. Built around its Research and Development team, Cyrus is internationally recognised as a leader in audio engineering, accumulating numerous awards and accolades over the last thirty years. Cyrus consistently pushes the boundaries of audio technology, working towards creating the ultimate hi-fi system, one which reproduces the sound and emotional experience of a live performance without interference or loss of detail.

### Sources:
